In support of
RB 328 AAC Municipal Applications for Land Use
Permits and Tax Abatements

Transparency of Land use permits and tax abatements seems like just plain common sense. The Bloomfield abatement for 4.9 million dollars given to Niagara Bottling LLC and land use permits to a 3rd party with minimal public announcements or public input is just the example needed to see the importance of this mandatory disclosure process.

Thank you for supporting RB 328 with replacements of the word “may” to “must” where applicable.
