

3/9/16

Substitute SB 422: An Act Concerning Residential Water Rates, Public Drinking Water Supply Emergencies and the Sellers of Bottled Water

Hearing date: Friday, March 11, 2016

To: Senator Osten and Representative Miller and the other Members of the Planning and Development Committee

Water is a precious resource; not a commodity to generate profits for corporations.

We need to:

- **Protect residents, not water bottlers during a drought.** If the DPH declares a Drought Advisory, the production of bottled water in CT needs to stop.
- **Rescind water rate discounts for water bottlers.** They extract large amounts of our municipal water and spring water, fill the environment with plastic pollution, and profit while citizens are conserving and paying more.
- **Rescind the *Special Sewer Service Charge* discount for water bottlers (now known as the *Clean Water Project Charge*).** CT ratepayers have paid for years to build infrastructure for clean water; no discounts for corporations.
- **Re-establish a citizen MDC (Metropolitan District Commission) watch dog committee.**
- **Impose a moratorium on any new large capacity agreements** until the State Water Plan is completed and addresses the issue of water bottling companies diverting water out of watersheds.

I urge you to support substitute SB422.

Sincerely,
Hannah D. Jackson
