

To Whom This May Concern:

Please be advised that I am extremely incensed as to the disgusting "secretive" action of the Town of Bloomfield to support Niagra Bottling plant's facility a few streets away from where I live. I am concerned about the environmental hazards to which my family and I will be subjected.

I would like the bill to include the following: "that there be an immediate cessation to all plans for the Niagra plant until an environmental impact study could be completed and shared with all residents residents who will be impacted. In addition, the residents should have an opportunity to address and have their concerns resolved" before "plans" can continue.

Thank you for your courtesy and time.

Loida John-Nicholson
Bloomfield Resident
