

Dear Legislature:

I am supporting Senator Bye's "Substitute" SB 422

- Protect residents, not water bottlers, during a drought. If the Department of Public Health declares a Drought Advisory, production of bottled water out of state should stop.
- Rescind water rate discounts for water bottlers. They extract large amounts of our municipal water and spring water, fill the environment with plastic pollution, and profit while citizens are conserving and paying more.
- Rescind the Special Sewer Service Charge discount for water bottlers (now known as the Clean Water Project Charge). CT ratepayers have paid for years to build infrastructure for clean water; no discounts for corporations.
- Re-establish a citizen MDC (Metropolitan District Commission) watchdog committee.
- Impose a moratorium on any new large water capacity agreements until the State Water Plan is completed and addresses this issue.
