Re: Water Bill SB 422, Hearing scheduled for March 11, 2016

From: Richard Fair

West Hartford, CT 06107

I am strongly opposed to the Niagara Bottling proposed facility and how the MDC has played a role in facilitating a discount to accommodate Niagara's business case. I am in support of Beth Bye's substitute Water Bill SB422.

We need language which favors residents not water bottlers in times of drought. In addition I would like to see the discount rate rescinded. We do not need to incentivize companies coming to our community to make money off of our precious resources. And lastly re-establish a citizen MDC watch dog committee. The MDC needs better oversight.

Sincerely,

Dick fair
