

Dear Sen. Bye,

I am writing as a Bloomfield resident and would like you to support Bill SB422, it will not only protect our residents in a drought, but it will protect our environment from other harms that may come out of the proposed water bottling plant.

I would support rescinding discounts for water bottlers and also support rescinding the special sewer charge discount being offered the water bottlers.. aka Clean Water project.

Please support the re-establishment of the citizen MDC watch dog committee.

Thank you for keeping Bloomfield and nearby area residents in the forefront of your mind.

***Rosemary N. Gunning***
