

I would like to express my strong support of SB 425. As a husband and father I chose to reside in Guilford (as opposed to my native NY) and work in New Haven because of the the opportunity at SeeClickFix, the New Haven-based global leader in Civic engagement software solutions for towns that wish to promote transparency and cost savings.

We've created dozens of jobs and plan to hire dozens more by year end 2016.

I would be happy to discuss more details about how this bill and firms like SeeClickFix will reduce spending and expose inefficiency at the municipal level. The most exciting part is the immediacy of the impact once citizens are given a role in making their communities stronger and more sustainable.

Best Regards, Mike Nargi 917.701.5350
