

I support this program. I use it frequently to report specif issues in my neighborhood, i.e. Drugs, Dead Animals, Illegal Dumping, Pot Holes, Health Issues (Standing Water/West Nile Virus).

The City responds and the issues are resolved within a reasonable period of time.

This program is shared Citywide and allows citizens to share information and knowledge on how to resolve a problem by contacting the correct Department Head.

This time government got it right, continue to fund this program.
