

To whom it concerns,

I am in favor of: SB 425: An Act Concerning Municipal Transparency, Efficiency, and Accountability"

I write to state that this bill would be beneficial for establishing an efficient, regional non-emergency service network for CT that would help to streamline and downsize costs of providing high quality services to residents throughout the State from all economic brackets.

In addition, the software company SeeClickFix is the Nation-Wide leader in this field and this growth will create and keep more jobs in CT.

Sincerely,
