

Hello,

I am writing in regard to SB 425: An Act Concerning Municipal Transparency, Efficiency, and Accountability. I am in favor of supporting community start-ups like SeeClickFix. I know it to be an extremely useful, simple tool. It makes me feel like my voice is heard. With SeeClickFix, I can easily bring attention to issues which directly affect me - and my neighbors - and get feedback and results in a timely manner from my alderman. SeeClickFix has become an indispensable app for me - please pass this bill so others may benefit from this useful platform!

Sincerely,

Madeleine Ranges  
New Haven, CT
