

I support SB 425!

To whom it may concern:

I'd like to express my support of bill SB 425, An Act Concerning Municipal Transparency, Efficiency and Accountability -- in part because I find the SeeClickFix service to be very helpful and useful to me, and to other Connecticut residents. In fact, I was told about this program by a co-worker, who loved the SeeClickFix program and touted its benefits to me. Please continue this program and support this bill.

Thank you,
