

Dear Members of the General Assembly,

As a resident of New Haven I use SeeClickFix on a regular basis and find great value in the service it offers. I would strongly urge the Assembly to support the use of programs such as SeeClickFix in other towns throughout the state. It is an extremely effective way to report a neighborhood/town issue, but even better, it keeps neighborhoods connected and allows people a fast and effective way of communicating a local issue.

Thank you for your support,
Sarah Beth Luce - Del Prete
