COMMENTS REGARDING CONNECTICUT RAISED BILL HB-5458:
An Act Concerning the Maximum Decibel Levels

February 29, 2016

Hello,

My name is Trina Gallo and I am a lifetime resident of Hartford, and have been in the entertainment business for a number of years. I am currently the General Manager of Spotlight Theatres in Downtown Hartford. Our company, Spotlight Theatres, invested over five million dollars into the revitalization of the downtown district. With that large investment we make sure that our customers receive the best possible presentation. We continually do auditorium checks, and we are always available to our customers if they have any questions or concerns. We also continually monitor their thoughts via our email comments. It is in our best interest to please all.

We do not believe that this matter needs to be legislated, but that it is a matter working well through voluntary standards.

Sincerely,

Trina Gallo
