

Dear State of Connecticut Legislatures,

I am writing to in support of this piece of legislation. As a frequent and successful patient of a Naturopath practice, I would love to see him to be able to provide more care for me. I feel that modern medicine as we kow it does have a place in our world but the experience from my ND works for me and my health needs. Please vote in favor of updating bill 5534.

Sincerely,

--

Darla Dunn,
