Subject: House Bill #5406

To the members of the Public Safety Committee,

I'm Brian Allyn Chief of the Canaan Fire Company, a fully volunteer fire service. The Canaan Fire Department is opposed to House Bill # 5406 .

The cost would be devastating to volunteer members to have to change the color of their lights because there are so many of them. It's easier to recognize which service is coming to a scene to assist by the color of lights in the members vehicles. Unfortunately, there are a lot of people who drive vehicles who don't pay attention to even firetrucks or ambulances and fail to pull over, so please oppose this House Bill number 5406.

Thank you for what you do for our communities .

Thank You , Chief Brian Allyn
