Subject: Public Safety Testimony House Bill #5406

Members of the Public Safety Committee

Members, it is with great concern that I learn of possible legislation regarding expanding the use of Blue Lights to agencies other than the Fire Service. Having been in the Fire Service for over 42 years, I believe that the regulations in place today have served all agencies well. Whether they are Blue Lights, Green Lights, Yellow Lights etc. they are all courtesy lights! They give no one any more authority on our public roads. They do however help Police and Incident Commanders identify incoming vehicles and allows them to react appropriately. There are good regulations in place, I strongly urge that no changes be made.

Thank you for your time.

Regards
