Subject: HB5408

I urge you to please support HB5408. After the constant devastation of gun violence in our country today, in all walks of life, there is no reason an honest, law-abiding citizen should not feel completely comfortable showing their license. We show our license in traffic stops and to buy alcohol, and sometimes when we use our credit card at a store. If we don't, we get in trouble or cannot buy the item. There is no reason a gun license should be any different. Voting against HB5408 suggests you do not have faith in our police force or our justice system. The only gun carriers who should object to this law are people who hope to do harm with their gun or do not have a license to begin with. We do not need to protect these people from the "inconvenience" of producing a license when asked. Gun ownership is a right but it is also a privilege in our society. If you want the privilege, you should be willing to carry the responsibility.
