Subject: Open carry in Ct

As a resident of Sandy Hook for 30 years, I never until 3 years ago thought I would ever write a letter about guns. However on 12/14/2012, my life, my husband's and my 3 children's lives have been forever changed. A day and I mean not 1 day that goes by, that we don't think about that tragic day. I hope you who will be making these decision never know this heartbreak. Just realize we can never think of a civilian carrying a gun as just a good guy exercising his broadly interpreted 2nd amendment. Please be courageous and stand up for what's right. Gun violence is an out of control epidemic. We don't need civilians doing the police officers job.

Sincerely,
Barbara Kraushaar
