Subject: HB5408

I fail to see any good coming from HB5408. I agree it is a minor inconvenience to anyone who lawfully carries a pistol, however I see it as the start of a slippery slope of eliminating reasonable suspicion for other searches in the future. Legal pistol permit holders and responsible gun owners are already going through enough; making more restrictive laws for the law abiding will do nothing to affect those who ignore the current regulations.

Thanks,
Chris Tuthill
