Remember when the Nazis or the Russians would stop anyone for no reason and demand "PAPERS!?" This bill is chillingly similar. If it is approved, any cop can stop any person WITHOUT ANY EVIDENCE OR CAUSE and demand his/her pistol permit. And take action against that person without any evidence of even carrying a firearm. If all it takes is an NRA decal on a car or someone wearing a Smith and Wesson sweatshirt to provoke a cop's demand, what OTHER rights can be next endangered? There are dangerous provisions in 5408 and no real benefit unless to harass honest gun owners and push the typical anti-gun owner agenda. This is a bad bill. It deserves to be voted down. Otherwise, we may be hearing "PAPERS" for many things. Freedom matters. Rights matter. So does Probable Cause. Thank you.
