Subject: HB 5408 - Testimony

To my humble members of the *CGA*:

Please accept my testimony in opposition to this bill. This bill demonstrates a total lack of common sense and will ultimately result in a substantial waste of time for both the LEO and our citizens.

Do you really believe that it is justifiable to require that I produce my carry permit to any LEO that might possibly suspect that I may be carrying? Not that I am carrying, but that I **MIGHT** be carrying? This kind of law can easily be carried to an extreme by an overenthusiastic LEO.

If I were found to be carrying, then and only then should I be required to produce my carry permit to prove that I am indeed lawfully carrying.

This proposed change in the statutes carries thing too far.
