**Subject:** In opposition to Raised Bill No. 5408

Hello,

I am not in favor of the changes proposed by this bill. A person should not be required to identify themselves if they are not suspected of a crime.

Removing the requirement of reasonable suspicion is a violation of the fourth amendment. Carrying a firearm, either concealed or open, is legal in CT.

This would be akin to allowing police officers to pull over people driving a car, another legal activity in CT, just to make sure they are licensed.

Thank you,

Rick Wiese  
Colchester, CT
