We want to let members of the committee know that the people of Connecticut strongly feel that persons carrying handguns in public, who are required to have their permits on their person at all times, should be required to show those permits when requested by police in order to verify that they have a valid permit.

I am not a gun owner, and if I saw an "open carry" in any venue, I would leave immediately, and LOUDLY warn others to leave as well, and I assure you they would. Then I would call law enforcement. Everyone I know will do the same. **How is a citizen supposed to know if this is a person about to initiate ANOTHER mass hooting? How are we to know?** Please tell me! This would be disruptive to businesses and other venues where this madness is permitted, and a waste of law enforcements' precious time. As far as I am concerned, better safe than DEAD.
