Subject: Sell of Tesla in Connecticut - March 2nd hearing

To whom this may concerned,

We live and Connecticut and want the state to prosper so that the community can thrive.

Tesla is an excellent car which has the additional benefit of being clean. Their dealership are clean and attractive in addition. No oil, no gas...

I do not understand why our state would refuse to welcome their business, tax dollars and jobs they will provide. So many Connecticut residents already purchased them.

Please allow Tesla to sell in Connecticut.

Thank you,

Karine Hils
