

My name is Mark Linskens. In May 11th 2016 I moved back up here from Florida to help my mom out when she was diagnosed with Alzheimer's disease I had no clue in what it entailed. If it wasn't for the Connecticut chapter of Alzheimer's disease Kristine Johnson Dana Hunter, Susan Miller and everyone else that assisted me and making sure my moms end of life was with dignity. The support that the Alzheimer's Association gave me and people like me was instrumental in helping a sad situation a lot easier to cope with. Kindest regards Mark Linskens
