

Committee Members:

Even Start is helping young children. With Even Start, the child's mother or father may pursue and earn a high school diploma. The young parents attend our adult high school, GED, or ESL classes while early childhood certified teachers provide learning activities to their preschool children. The program is extremely valuable to our adult education program.

There was a hearing on February 16, in regard to Even Start funding.
Please maintain Even Start funding.

Yours truly,
Michael S. Fortuna
Teacher, Middletown Adult Education
