

Hello, my name is Adrianna Simmons, and I am a Senior Acting Major at Arts at the Capitol Theater Performing Arts Magnet High School. I have spent the past 4 years intensively studying the performing arts on a daily basis, in conjunction with my core academics, a course of study which I firmly believe has enriched my education to its fullest potential. The atmosphere of creativity and dedication that follows me from class to class and buzzes through the very air of our school is what makes it such a special world to be a part of, surrounded by peers who genuinely want to be there and who share the same passions, encouraging each other to push the envelope of success. The education I have received has prepared me to face the professional world of theatre with knowledge and excitement, a step ahead of the game, and an appreciation for what it means to work hard to achieve your goals. I wouldn't trade what I have gained there for the world. Please continue to fund and support magnet programs. Thank you.
