

Dear State Department of Ed Appropriations Hearing Members,

I am a recent graduate of the Parents Supporting Educational Excellence (Parents SEE) course. February 3rd of this year was my first visit to our Connecticut capitol where legislatures were thanked for their continued support for Discovery communities. Without Discovery communities supporting programs such as Parents SEE I might not have found my “parent voice” to champion for my children’s future. Our children rely on me and all of you to ensure that our state is continuing to do what’s best for the future of Connecticut. Thank you in advance for continuing state funding for both Discovery and Parent Trust!
