

Hello: Our name are Richard & Joanne Murphy. We have a daughter who is 45 years of age and is a special needs person. Before Abiltiy Beyond, she had a difficult time in communicating with others , socializing, and was a stay it home young women.

When Ability Beyond came into her life, she was transformed into someone who loves life and cannot wait to wake up the next morning to go to work and be with friends also with special needs.

My wife and I are in our 70's on a social security and cannot give the quality of life that Ability Beyond can offer. We need someone to speak up for those who cannot speak or defend for themselves.

We understand that times are difficult and budgets are tight, but do we take it from those who cannot fend for themselves.

Thanks you for your time.

Richard & Joanne Murphy
