TESTIMONY OF
NATIONAL FEDERATION OF INDEPENDENT BUSINESS (NFIB)
REGARDING
HB-5086, AAC THE CONSTITUTIONAL SPENDING CAP
BEFORE THE
APPROPRIATIONS COMMITTEE
MARCH 4, 2016

A non-profit, non-partisan organization founded in 1943, NFIB is Connecticut's and the nation's leading small-business association. In Connecticut, NFIB represents thousands of members and their employees. NFIB membership is scattered across the state and ranges from sophisticated high technology enterprises to "Main Street" small businesses to single-person "Mom & Pop" shops that operate in traditional ways. NFIB's mission is "To promote and protect the right of its members to own, operate, and grow their businesses." On behalf of those small- and independent- job-providers in Connecticut, NFIB/Connecticut offers the following comments:

NFIB/Connecticut strongly supports the intent behind HB-5086, which aims to implement the state's constitutional spending cap that was approved by a strong majority (81%) of voters upon adoption of the state personal income tax by enacting certain defining terms concerning personal income, inflation and general budget expenditures. A strong, in force, constitutional spending cap would be a much more valuable benefit for taxpayers, including small business owners, and lawmakers alike, than the current statutory cap. Legislators would no longer have to bend to the pressure of special interest groups asking to modify or do away with the cap, and it would be helpful in outlining the confines of the state budget, in conjunction with revenue inflows. Small business owners feel that the legislature absolutely needs to stop allowing excessive spending to be an option. Achieving that goal is the most effective economic development policy we could have, and we believe that the concepts embodied in HB-5086 would go a long way in this regard.

We encourage the Committee to move forward with legislation to fully and strongly implement the constitutional spending cap.
