

2-22-16

To Whom It May Concern:

Through AFP my programs have received 14 hours of professional development for our staff. We would not have been able to provide this amount of high quality of professional development without this assistance. Without this program's assistance accreditation is very difficult to accomplish. Please do not get rid of this program. Accreditation is necessary for funding from school readiness, care 4 kids, and an important quality indicator for parents.

Thank you,

Meredith Martineau

Director of Early Learning
