

To who it may concern,

Please pass HB 5788 banning Ivory and Rhino horns, Elephants and Rhinos are being killed by thousands each year just for the ivory from elephants and horns from rhinos. At the rate these animals are being killed both the elephant and rhino will be extinct in 10 years. Children will be only be able to read and see pictures of these animals in books if HB 5788 does not pass.

Thank You,

Robin Peterson
