

Please protect Plum Island. Do not sell for development, please. We need open space for all to enjoy & being outside is good for all of us. Also stop cutting so many trees along our roads. Why so much? ? Trees help clean our air & so much more. It seems like a huge waste of money all this cutting, almost like busy work for a crew with nothing else to do. How about getting rid of vines that are killing our trees. Think about what is best for our environment, please.

Carol, a large tax payer in Groton
