We all just need too move out of this STATE , just way too many taxes. Town TAXES are the worst in the STATE and this current TAX = In Connecticut, single filers earning less than \$50,000 or joint filers with income less than \$60,000 can deduct all their Social Security income for state-income tax purposes. Those who exceed those amounts can deduct 75% of their Social Security income on their state tax returns.

Again and again, Showing CT attacking the POOR. Our TAX system here in CT just screams GET THE F* OUT! _ Does adding more taxes really have STATE residents in mind? (NO!). Let those who worked hard here retire with out added burden. STOP OVER TAXING US!!!
