We Senior Citizens of Connecticut have suffered enough, We have paid our dues in both Federal, State and Social Security

I am 73 yrs old and have worked 46 years in a factory while paying into the Social Security System. What we receive is our money

no one is giving us anything, it isn't a gift. If the system has misused that money why should we be penalized for their incompetence?

No Senior Citizen in our state should be taxed on our EARNED SOCIAL SECURITY BENEFITS.
