

James and Virginia Copeland
gjcope@cox.net
enfield, Connecticut 06082

My wife Virginia & I worked all our lives and contributed to social security. We should not be penalized now for receiving money that we contributed. We are still working to supplement our social security benefits.

It would be much more productive if you reduced the huge salaries of some of our government personnel, and reduced the pension benefits of former state workers, and the benefit packages they receive.

We are big supporters of Senator Kissel, James & Virginia Copeland
