Dear Senator Kissel,

I support your efforts to eliminate the personal income tax on social security benefits in CT. Unfortunately, we live in a state with some of the highest taxes in the country! Consequently, living here has become a financial burden for many in recent years, especially after the last two tax increases, which were the largest in state history. Many businesses and individuals have been fleeing the state as a result. Research studies indicate that CT is considered one of the worst states to retire to. Most states either exempt social security benefits from state income tax, or they have no state income tax.

Again, I support your efforts to eliminate the personal income tax on social security benefits in CT.

Respectfully,

Shawn Flynn
