Thank you for proposing this to help our senior population. I'm so sad to see our senior friends leaving the state in increasing numbers. They are moving to states with taxes more friendly to seniors and first on their list are states with no taxes on their social security . Just a few weeks ago another of our friends let us know they are scouting for a new home in the south and putting their home here on the market. Leaving their families here is so sad. My neighbor is also planning to look into this in an effort to be ready to move once they retire. My husband and I also are discussing this option. If seniors can't move entirely, I have found that they have taken the option to move out of the state for part of the year due to tax situations.  
Thank you.
