I submit my testimony in support of the bill to eliminate the personal income tax on social security benefits. Throughout my working career, I have paid taxes on my income and deductions were made for social security. If and when I am able to benefit from social security because of the contributions I have made during my entire career, I do not feel it is fair for the government to tax me on my money that they have held in their account for all this time. I've paid my fair share of taxes on my income and my social security benefits should not be taxed as well. Thank you for the opportunity to give my testimony and thank you for listening. Best regards, Mark Marschall; Somers, CT
