Something really stinks in Connecticut! Almost everything possible is taxed in this state and we continue to be in debit. Where's all this money going? Maybe it's time for a public audit! Fees and taxes on cable, (tv), something we used to watch FREE. Cellphone bills, everything. Fraud, misuse, and excessive spending. Poor budget spending and decisions on foolish spending. Do we really need a new handicap logo? Just one example of foolish spending. My cell phone monthly bill is \$50.00 with and added \$23.00 in fees and taxes. REALLY, more that 50% of my bill is taxes and hidden fees. Sooner or later the people will speak out, just as we are now with the election of a new president. Get it right and start serving the people and Not big business. Even they are leaving.
