

Dear Senator Kane,

I want to thank you for co-sponsoring this bill to eliminate the personal income Tax on Society Security Benefits.

My husband and I are retired and are actively looking to move out of Connecticut because it is just not economically feasibly for us to remain here even though it breaks my heart to be leaving family and friends behind.

If this bill were to pass it could change our minds and not leave Connecticut.

I have many friends that are in the same situation and are also looking to leave because of the amount of taxes we have to pay in Connecticut.

This is my testimony. I am sorry I can not be there in person tomorrow.

Good Luck,

Claudia Michaelis
