Trustfully, I was shocked to hear Social Security was taxed in CT. So first thing we have started doing is looking South to Social Security TAX FREE states for our retirement. The tragedy is we WANT to STAY in Connecticut but feel this tax is beyond Reason and Fairness! We have spent our lives working hard for Connecticut now told our Social Security is taxed! Connecticut's greediness is shameful and embarrassing. So like many of our friends if this is not Changed ASAP we will be moving Out of CT and taking our funds to a Tax Free Friendly state!
