After figuring out that our workers comprehensive insurance that our business pays through the nose for is the HIGHEST IN THE COUNTRY! and MA is 2/3 cheaper we are seriously considering the process of moving to Mass., our business and our residence, along with all our employees. Since we have the option of moving 7 miles over the border, we also would not be taxed for Soc. Sec. -seems like a win, win to get out of this business and personally unfriendly TAXED, TAXED state! DON'T DIE IN CT IS A HUGE INTERNET DIATRIBE-now I'm thinking don't live in CT either. Only problem is our house is now worth nothing since everyone has already figured out that since all businesses are now moving out no one is moving in!
