We all realize that the tax burden in CT, income, property, sales, use taxes, and tax on Social Security is getting to be very painful. As a retiree, I am collecting SS. Taxing SS is a double tax and unfair and inappropriate. Many, and I mean many, friends have retired elsewhere where their SS and other incomes are not taxed..even north of here (NH). I am trying to stay in CT, but am now seriously looking to move out----simply because of the cost of living and tax burden. Removing taxes from my SS would be a start in encouraging me that things will change, and I might stay. Thank you.nvlo
