106 Balance Rock Rd Apt 3, Connecticut 06483

In the 4th quarter of 2015 Connecticut was rated the most expensive state to die. Connecticut is also one of the most expensive places to live. Exactly what is the incentive to live and retire in CT? Only 13 states currently tax social security payments so I'm not surprised Connecticut is in that list. Connecticut public servants have proven time and time again they cannot serve anyone but themselves and their cronies. They are unable to balance a checkbook, can't provide basic services at a fair cost, throw money down big government pork programs and giant welfare holes, and show no regard for other people's money. If it can be taxed, Connecticut will find a way to do it. I will absolutely leave CT rather than pay a dime in SS taxes. Born, raised and worked here all my life, frankly I regret staying here this long. I encourage all my children, family and friends to leave CT. There is no future here for honest hard working middle class people.
