Why does everyone forget that seniors do not get a "Cost of Living" increase each year. Why does everyone forget that because seniors do not get a "cost of living" increase each year their disposable dollars do not go as far as they did last year and the year before. Every utility has slipped in increases for service. Every grocery hits the pocketbook weekly with increased prices for food, every town has increased Property Taxes or initiated "Sewer fees" not taxes that cannot be claimed. . Many who depended on interest received on CD's, savings account and Money Markets have found themselves nearing the poverty level. Seniors should receive a "break" from someone. None ever comes. It's time we got a "break". I fully support the elimination of personal income taxes on Social Security.
