Members of the Finance, Revenue and bonding Committee

**Testimony in Support of SB-335**

**AN ACT CONCERNING DOUBLE TAXATION OF BUSINESS-TO –BUSINESS  
TRANSTIONS.**

I own a body shop in Meriden, CT for the thirty plus years only until recently we were never charged sales tax on paint, refinishing materials. A few years ago the State said we have to pay sales tax to the paint supplier and then also have the customer pay sales tax again when they pay the invoice for the vehicle repairs.

I feel this is very unfair to the consumer to be tax double on the same repair to their vehicle.

It is most important to pass SB 335 so the vehicle owners do not incur double state taxation.

Thank you in advance for your cooperation.

William Denya
