Not one tax dollar should go into this stadium. The rock Cats had a great product and a great stadium. The premise that was used to build this stadium was all wrong. When was the last time anyone travelled to Portland Me and stayed overnight to watch a minor league team. How many minor league teams try to make a go of it in Waterbury. Waterbury is a much better and safer environment to watch a minor league team. I would not go to downtown Hartford just for safety reasons alone. I have never been shot and would like to keep it that way. If the new owners needed a new training facility perhaps some kind of deal could have been worked out' New Britian is just a plain superior place to go with your family. How can we afford it? We are broke. Hartford said they could do it on their own so let them go for it
