To Committee members reviewing Bill 452 I am adamantly opposed to this Bill. NO tax dollars should be diverted to cover the short fall of the excess expenditures related to this project. Regardless of the cause of the excess expenditure for this project it is not up to the 168 towns not involved in this project to subsidize it. This bill is clearly written to bail out one team, project and stadium and one team, project and stadium only. What if the remaining facilities and towns that host them in the state cry "foul ball"; how will the cash poor state deal with that situation? Do not set a precedent-Bridgeport among other towns will be knocking at the Capitol door looking for money.

From the beginning of this project Governor Malloy said no CT tax dollars would fund this project. As I and the other tax paying residents in CT must do to balance our budgets is to JUST SAY NO. A dollar only stretches so far and does NOT include funding the stadium excesses. I was against this last session and I remain so this session! Thank you, Susan R. Cavanna
