It would be absolutely wrong to have tax dollars go to support the Yard Goats!!! How awful the State of Connecticut has been wasting our money on foolishness. The stadium in Hartford and the Fast Track bus line are two of the recent travesties. I see those busses going day after day with no riders. I feel victimized by our state government deciding to throw away our money so frivolously when I barely have enough after the ever rising taxes to get along! The stadium which is way over budget is another suspicious decision on which we spend tax dollars. It looks like someone is either getting "kickbacks", or pandering to the unions for votes. Few seem to be interested in the "greater good", just their own personal agenda.
